

## **‘Group Dynamic Workshop’.**

Workshop information:

Organisations are made up of a number of diverse and gifted individuals, all with unique wiring, strengths and skills. To achieve the goals and objectives of the organization these individuals need to function together effectively as a team. With this in mind the D-Blaze team designed and launched this workshop to recognise and align the group dynamics of your team effectively. This workshop assists delegates to utilize the human resources available to them in the most efficient manner possible and to create and maintain a motivating and stimulating environment in which his/her team can develop and operate most effectively. This training is also an effective way to give delegates insight on how to minimize group conflict.

In current economic times it is essential for organizations to ensure that they employ the right people who will contribute positively to the organizational culture and goals and that they keep these people on board, on a long term basis.

This workshop is led by Ingrid Grech Lanfranco, a counselling psychologist. Ingrid's presentations are distinct from other's because rather than separating herself from the audience by "performing" she uses and teaches unique techniques to lower the intimidating factors that inhibit people from participating; therefore, everyone joins in-it's fun!

This workshop start at 9.00am and end at 3.30pm. Certificate of attendance will be given to delegates staying for the whole workshop.

Come to gain further insight, network and ....have fun!
