

Breaking the Cycle of Stress

Give your managers and employees the skills they need to perform effectively under high pressure. Get yourself a day where you can gain a lot. This program is an unusual combination. Participants benefit dramatically in their personal lives, and also greatly enhances communication and productivity on the job. It's often the most highly-rated program a company can offer to its people, whether as part of ongoing staff development, or for employee appreciation. This training is at the cutting edge of stress reduction, offering a powerful blend of cognitive training and clinically-proven relaxation techniques to manage stress in the most challenging circumstances. *Wear comfortable clothes and get a towel with you, as you'll have a chance to do some stress reduction exercises.*

It's also much more than a stress-management program. The principles and techniques participants learn are essential for successful leadership, self-mastery, focus, and ability to work effectively with others.

Participants will learn how to:

- Understand and communicate more effectively with difficult co-workers.
- Manage challenging work situations with greater calmness and clarity of mind.
- Dramatically reduce stress with clinically-proven techniques that can be done in a few moments.
- Achieve significant relief from chronic pain, high blood pressure, and insomnia.
- Enhance personal productivity. Focus the mind where you want it to go, to achieve results more quickly and effectively.

TESTIMONIALS:

‘A big well done to start with! It was a most enjoyable day. I have sweated my way through the practice session but I have to admit that it made the difference immediately. I felt really good. The interactive sessions were stimulating (also prosit to Ms. Martin). I think that the two coffee breaks were well timed too’. (KJH)

‘ I would like to take this opportunity to congratulate the organisers and facilitator for organising this workshop. I suggest that these sessions should be organised more than once in a month, as through this workshop I learnt how to take care of my physical, emotional and mental health. Just a small note I feel that the yoga session would be more beneficial if done prior lunch..... otherwise keep up the excellent work’. (CM)
